COAL MINING TROUBLES

Labor Commissioner Called to Washington, Ind.

In response to an urgent telegram from B. Frank Strasser, president of the Indiana Coal-mining Company, at Washington, Ind., both of the labor commissioners left for Washington yesterday at noon. Strasser has been operating a mixed mine of union and nonunion men, and last week complained to the commission that his men were being terrorized by union men from he would probably have acquitted Nier. adjacent mines, because of the employment of nonunion men. It is probable the labor commissioners have been summoned to

### CHAIRMAN HERNLY BACK

DELPHIA AND NEW YORK.

Himself in the Afternoon Papers-Political Notes.

Charles S. Hernly, wearing a new brown checked suit of fashionable cut and a new Easter hat, arrived from the East yesterpublican state committee went to New stopped at Washington and Philadelphia. In the latter city Mr. Hernly made final arrangements for the entertainment of the Indiana delegation during the national convention. The Lafayette House will be eadquarters for Indiana people. Mr. Hernly has arranged for the entertainment of eighty people, but says many more can be

accommodated if they desire to go. While in Washington Mr. Hernly dined with Senator Fairbanks and was assured by the latter that he did not care to preside over the Republican state convention. Mr. Fairbanks said he had expressed himself in this way to all those who had writship. Mr. Fairbanks will attend the convention, however, and expects to arrive here next Sunday or Monday. He will occupy Suite 136 and 137 at the Denison Chairman Hernly announces that all of the Indiana representatives in Congress will attend the convention, and arrangements will be made for their entertainment at the Denison. Senator Beveridge it is feared cannot come on account of his wife's ill-

Mr. Hernly saw Chairman Hanna and several other members of the national committee while in Washington. He talked to Mr. Hanna about political conditions in Indiscussed. He says he talked to Mr. Hanna things. They also discussed the organization in Indiana, and Chairman Hanna appeared to be well pleased with the reports

Chairman Hernly came back wearing a handsome gold horseshoe pin in his scarf. "See that pin," he asked. "I won that on a wheel of fortune in New York. A horseshoe is always a good omen for me. The day I was elected state chairman the first time I found a large horseshoe in the street. I picked it up and carried it to my office and have it yet. Horseshoes, a rab-bit's foot, the fad of looking over one's right shoulder at the moon and precinct committeemen are my long suit. They bring me success. I won this pin at some kind of a charitable affair. I staked a

dollar and this is what I drew." Chairman Hernly only spent a short time n the city after his arrival from the East. He went to New Castle to spend Sunday with his family. He will return on Tues-There's one thing I want to say," he remarked to a Journal reporter, "and that is that some of the newspapers have intimated that I went to Washington for the manship. I'd like to announce that I did nothing of the sort, and I'd like to add that if I wanted to 'fix' anything I would never go to Washington to do it."

### Mr. Wilson's Denial.

Charles E. Wilson, secretary to Governor Mount, returned from the East yesterday morning. In speaking of his trip yesterday afternoon he said: "My business in the East was altogether private. As far as my being in Washington in the truth in it. I did see Mr. Hernly while in dent, and the only conversation I had with would be quite satisfactory to them. It lection of the chairman."

# HOSPITAL TO BE ENLARGED.

Improvements Contemplated for City Institution.

The members of the Board of Public Health, Board of Public Works and Mayor Taggart visited the City Hospital yesterprovements at that institution. Architect
Scott Moore accompanied the party and individuality of Mr. Daingerfield's own will prepare plans under the suggestions style." of Superintendent Poucher, of the hospital. After being shown over the building by Superintendent Poucher, the members of the two boards and Mayor Taggart real- Few New Developments in the Case ized the necessity of speedy improvements to relieve not only the present congestion but also the increased patronage of the hospital in the future. It is the intention to recommend the erection of an additional wing to the north and east sides of the present building which will be forty feet wide, 135 feet long and three stories high. The offices, living rooms of the superintendent, internes and nurses and dining erly occupied by these departments in the present building will be converted into wards for patients. Mr. Moore and Superintendent Poucher will confer this week on the plans for the new addition. It is also probable that a new building for contag-

### ious diseases will be erected. TRAVELERS ENTERTAINED.

Guests of the T. B. Laycock Manufac-

turing Company.

About one hundred members of the Commercial Travelers' Club boarded two special street cars yesterday morning and went to the Laycock furniture factory, located at Tenth street and the canal. The if found. Then he asked all those in the occasion was an invitation of the owner of the factory to the traveling salesmen to come and investigate the progress made in the factory toward making it an ideal working place. Arriving at the factory the guests were seated at a luncheon, and Ira Jones, president of the Commercial party, made a short address. He was followed by State Factory Inspector McAbee, Mr. Laycock and C. E. Coffin, vice president of the company. The party made a tour of the building, which required about an hour and a half, during which time they took a keen interest in the improvements which have been made to realize an ideal

# THE NIER CASE.

Man Charged with Arson Bound Over to the Grand Jury.

The trials of Isaac Nier on charges arson, attempt to commit arson and receiving stolen goods were completed yesterday in Police Court after occupying several days and being continued from time to time. Nier was bound over to the grand jury on each of the three charges, the bond being fixed at \$1,500. Judge Daly said that had this been a final trial of the case

# The Thief Escaped.

John Buchanan, living at Cumberland, caught a man stealing chickens from his New Planes, \$165 and up, at Wulschner's, place yesterday. He started to bring him | Telephone New 3235.

to the city, and at the Belt Railroad and East Washington street the fellow made his escape. The bicycle police were called, as Buchanan thought he was hiding in a lumber pile there. He was not found. The thief is supposed to be a resident of Rich-

### RESULT OF A RUNAWAY.

Sprained Ankle and a Case of Nervous Prostration.

As the result of an exciting runaway Friday, starting on Capitol avenue near the Fall creek bridge and ending on Sixteenth street, Mrs. Bowan, of Zionsville, is confined to her house with a sprained ankle and a woman who was riding with her is suffering from nervous prostration. While the horse was running each woman tugged at a rein, and at Sixteenth street succeeded in turning the animal and guiding it toward a tree, into which it ran and stopped.

HIS PICTURE OF THE MADONNA WELL RECEIVED BY ARTISTS.

Mr. Kitchell Writes of an Arrange ment to Collaborate with the Painter Daingerfield.

Mr. Joseph Gray Kitchell, of this city, whose composite picture of the "Madonna" has caused so much talk among artists and others, is now in New York, and has arranged to collaborate with the celebrated painter, Daingerfield, in developing the work. In a letter to a friend here Mr. Kitchell gives an interesting account of what he is doing and proposes to do. He

"You may be interested to learn of a view to develop from the composite "Madiana, but says the platform and the chair- ly the interesting result of scientific exabout campaign literature among other ration with one of the great American painters a Madonna that will embody the significance of the composite blend, with features brought into correct drawing and that tinge of individual interpretation that characterizes the work of my associate in the task. I have found among some of the best-known artists here a surprising amount of interest in the compositively obtained image of the Madonna and I soon saw that I would have no difficulty in enlisting the services of several to carry out the idea to a successful finish. work as a final unit to a sum representing the results of so many masters in the years before, and it then became a matter of extreme care to deputize the commission to the man most signally qualified to undertake it. Mr. J. Wells Champney, I felt, would have handled it with exquisite so immediately after his return from Europe, where he is about going, but that would be too severe a strain upon my pa-tience—I can scarcely wait to have the work completed. H. Siddons Mowbrey was another artist I conferred with and one specially suited to the work, and so were Beckwith and Blashfield, the latter stopping his work the greater part of one morning to outline in pencil his idea of the

"Kenyon Cox, with whom I had three interviews, adopted the idea with avidity, and I obtained great benefit from his sug-gestions and was interested to observe that even in ordinary discussion he employed with perfect ease and freedom the same virile, careful and scholarly method of conveyance that commands such generous compensation for his critical writings. But Daingerfield was the man for my work, the one by nature and training the most admirably equipped, his entire life having been a preparation for just such an undertaking, and his interest and zeal for it Washington, but it was altogether by acci- were such that he put aside two important works to undertake this at once, and it is now under way. When studying the large in Congress being in favor of Governor our second interview, and after he had Mount for chairman of the state con- | declared his willingness and eagerness to redraw the image, I asked him whether he thought it would be a truly beautiful face. is, however, the intention, not only of the | He held the print far from him, half closed representatives, but of the senators, to his eyes, from which the tears had started, have nothing whatever to do with the se- and said slowly and quietly: Beautiful? Ah, yes, very beautiful; already this is beautiful, but when it is corrected it will

indeed be wonderfully so.' "The greatest Madonna ever painted by an American is the famous "Daingerfield Madonna," of which hundreds of thousands of prints have been made, but he has never yet painted a full-face view of the virgin, and this will be a distinctively new forte for him. In this picture all the characteristics of my composite will be manifest-features and expression and all-but the eyes will be brought into true drawing, the nose refined, the heavy head drapery lightened and the element of de-

# THE WEISS MYSTERY.

Yesterday.

There were few new developments in the Weiss case vesterday. Two witnesses have been found who claimed to have been in the saloon and to have seen Weiss standing behind the bar with blood running rooms and kitchen will probably be located down the back of his head. Another womin the new addition and the quarters form- | an was found who claims to have heard scuffle or similar noise in the saloon.

The most likely solution to the case yet found is the story told of a man who entered the saloon early one morning about three weeks ago, and, after asking for a bottle of whisky, said he would pay for it later. After a few words Weiss started to get his revolver, which at that time is said to have been empty. He went to the rear tridges, but did not get them. The stranger drew a knife, and when he tried to assault Weiss was knocked down by the witness. He threatened vengeance.

It is also said that a short time after Weiss got cartridges for his revolver, which he put into his pocket and went to a saloon not far away, where he made inquiries for the man who had attempted to assault him, saying that he would kill him, barroom to have a drink with him, and, after blowing the foam from a glass of beer, fell to the floor in convulsions, to rate to manufacturers in Indianapolis is which, it is said, he was subject.

Appomattox Day Celebrated. The thirty-fifth anniversay of Lee's surrender (Appomattox day) was celebrated Travelers' Club, who was in charge of the by Encampment No. 80, Union Veteran Legion, last evening at their hall, as has been their custom for several years. The audience was well entertained by addresses from Col. Z. A. Smith, George W. Spahr, Harry Adams and others, also recitations and music by Vories's Orchestra. The entertainment was one of the most successful that the Legion has held, and it closed with a dance participated in by the "old vets" and the young people.

# Willie Eppert's Injuries.

Willie Eppert, eight years old, living with his parents, north of Fall creek, was seriously injured, yesterday morning, while playing with schoolmates. While playing, he fell and his head struck a brick, crush ing the skull. It was thought the injury might prove fatal.

# EASTER

WORN BY THE WOMEN.

The Indianapolis Churches Will Be Thronged with Beautifully-Gowned Women To-Day.

Easter is always associated in the minds women with new gowns and bonnets. and, in fact, a complete new outfit. For weeks before Easter the fashionable modistes work night and day trying to please their customers by turning out new gowns to be worn on Easter Sunday for the first time. It is said that the majority of persons, that is, women, flock to church on KITCHELL IN NEW YORK Easter Sunday, not only to hear a sermen. but also to view the gowns and bonnets worn by their friends, and also to show off SHE IS GETTING TO BE IN EVIDENCE their own.

One of the late advices from the East, and, indirectly, from Paris, is that the styles worn by our grandmothers are going to be fashionable again. Not that the styles are going to change immediately, but the undercurrent is for a complete revision. which must occur within the next few months. The present vogue-tailor-made, bolero, princess and other costumes, with plaited, clinging skirts-will move out of the style procession, and a new set of ideas will take their place. Empire style it will be, but of the second empire. The Josephine styles will be supplanted by those of Eugenie. The new point in the skirts will be the abandonment of the trained skirt in favor of the round or bell-shaped.

Simplicity is the keynote of the style of dress which will be adopted for street wear during the coming summer, and, on the other hand, nothing will be too elaborate, to catch a more or less fleeting glimpse of either in construction or adornment, for its favored disciple of Thespis. It has long dressy gowns for receptions or driving. On | been a common sight at the Capitol-avenue donna," which in its present stage is mere- | these lace, fringe and embroidery will be | entrance to the stage of the Park Theater used in profusion. Black toilettes for sum- to witness a bevy of girls, most of then mer will be decidedly in favor. Black of an unusually tender age, waiting with crepe de chine will be fashionable, trimmed in black Chantilly lace or embroidered in

Among the assortment of new neckwear shown there are some handsome scarfs imported from India and Japan. These scarfs, which are to be very fashionable with evening gowns, are about a yard and a quarter square and fashioned of the most delicate silk crepe. Some have exquisitely drawn patterns in floral designs, while others are decorated with embroidery. The scarfs, which come from India, are of some sheen material with beautifully embroidvalue of the opportunity to contribute his ered flowers. These Japanese and India scarfs are sold for from \$6 to \$15. Other neckwear, made in this country, and some imported from France, is fashioned of molines, mousselines, chiffons and liberty come in jabots, with ruchings and ribbon trimmings, and bows or in ties and are variously priced. In this line of neckwear everything is crinkled, or, as the French say, souffle, which means very light and frothy. The tight, hard, plain goods, although neat and very well suited to tailormade gowns, are not particularly good form, neither are they quite as new as the

In the parasol department there are a variety of styles, of which the French goods are perhaps the handsomest. The parasols have one point in common, whether manufactured in France or America, and that is in the style of the handle. The handles are all princess style, with a rosette, or bow, or tassel and fringe as a trimming on the stick. Several of the French parasols shown had lace insertion in the same color as the covering, making a very pretty effect. Another one shown, a black silk and satin check, has a border of lace. Another one was a delicate French gray, with jeweled embroidered butterflies strewn over the cover. A white silk parasol had black lace butterflies over the entire cover. Anwith pink. A wide scalloped border of white grenadine, with two satin pink stripes, was edged at the top and bottom with ruches of white liberty silk. The pink ining gave a delicate and pretty effect to the white covering. The Dresden patterns in parasols are going to be quite fashionable: also the Persian silk covering. Another style is the French cut parasol, edged with a heavy silk cord, the same color as the covering. The only trimmed parasols shown are in white and black chifon. The chiffon ruffles are trimmed with dainty ruches of satin ribbon. The polka dot parasol will be popular with the sum-mer girl. They are shown in innumerable colors and are decidedly chic. The parasols range in price from \$1.50 to \$15.

# STOCK GOING RAPIDLY.

Detailed Description of the Proposed Power Building.

Only one week has passed since the stock subscriptions of the Power Building Company were opened and yet \$80,000 worth of stock had been taken up to last night and Leave Cincinnati, returning, 6:30 p. m. the first payments on the amount made. The company has been incorporated with an authorized capital of \$300,000 one half of which will be issued at present and the balance placed as a bonded indebtedness on which there is an assurance that interest at 4 to 41/2 per cent. may be secured. The contracts have just been closed for the purchase of the property at the southeast corner of Washington and New Jersey streets. The lot has a frontage of 117 feet on Washington street and 195 on New Jersey street. The Little Hotel now on the real estate will be torn down at once and work upon the power building will be begun about May 10. An effort will be made to have it ready for occupancy Sept. 1. A prospectus is now in the hands of the printers and will be sent out in a few days. It will show that there are 1,350 manufacturers in this city and that less of the saloon and asked his wife for car- than 300 own their premises. A full description of the new building and the ad-

vantages it presents to small manufacturers will also appear.

The building will be of brick, eight stories in height. Power, light, heat and water will be furnished at an exceedingly low price, and it is claimed will save to such as occupy it a large portion of the money now expended for rents, insurance, power, machinery, heat, light, belts, water, and many other things. In the new plant it is said that insurance may be had at 60 cents per thousand, where now the lowest \$1.35 and many are obliged to pay as high as \$7, while many others are unable to secure insurance. It is also claimed the occupants of the new plant, on account of accommodations will be able to save the now large expense for engineers, firemen, helpers, elevator conductors, watchmen, and drayage. The plant will be not more than four blocks from the farthest freight depot and the L. E. & W. and the Monor depots are less than a square away. The first floor of the building will b divided into store rooms and occupants of the building will be given first opportunity to rent the rooms for exhibition purposes. The eighth floor will be constructed in manner similar to a roof garden and will contain dining rooms, toilet rooms, and will be for the benefit of the employes of

plans and drawings as well as for other It is thought now the applications for space will be in excess of the accommodations offered, though no contracts will be made until the completion of the plant. It is planned to furnish space at about price for similar accommodations is 4 cents, in Detroit, 35 cents, in Chicago, 60 cents and higher, but it is claimed that none of the plants elsewhere will be equally desirable for small manufacturers. It is also said that the small manufacturers from out of the city who will confe here with their employes and their families will increase the city's population from 1,000 to 1,200.

the concerns. The basement will contain

safety vaults for the storage of valuable

sation are Albert A. Barnes, Charles A. Bookwalter, Alfred Burdsal, Charles E. Coffin, Daniel P. Erwn, Frank M. Fauvre, P. H. Fitzgerald, Ovid B. Jameson, Horace E. Kinney, David M. Parry and William M. Taylor.

### PLANTED THE ELM.

Governor Mount Takes Part in an Interesting Ceremony.

In the presence of a number of State officials and a delegation of Spiceland Academy pupils who attended the oratorical contest in Plainfield, Governor Mount, yesterday, planted an elm tree on the Statehouse lawn. Some time in the future a limb from the famous elm tree at Corydon, under which the first legislature of the State was convened, will be grafted

### THE REAL MATINEE GIRL

IN INDIANAPOLIS.

A Disgusted Actor Gives His Views of the Young Woman-Observations of Charles Layman.

Indianapolis can now boast of her matinee girls-that is, some of them are girls, even if there is a liberal sprinkling among them of femininity of a riper age. By matinee girls is meant that class so familiar and so oft discussed and written about in the East which makes regular attendance upon matinee performances almost a religious ceremony and carries its worship of actors to the extreme of waiting outside the theater doors after the "show" is out feverish eagerness for the actors to make their exit after they have doffed their make-ups and put themselves in presentable shape for appearance on the street. Until recently, however, such sights were unknown about the other theaters of Indianapolis. A Journal reporter was standing in the doorway of the Grand Opera House yesterday afternoon, discussing future prespects of the stock company with Mr. Charles A. Layman, when his attention was attracted to a double line of girls and women at the mouth of Wabash street, leading to the stage entrance of the theater. "Look at the crowd of matinee girls waiting to catch sight of the actors," said Mr. Layman. "That is getting to be a regular thing around here now. The members of the company have to run a veritable 'gauntlet' every matinee day." Very shortly one of the men of the stock com-

pany came up, looking flushed and annoyed. Had the foolish creatures who were making such a spectacle of themselves been able to hear what this actor said about them it is likely they would be a trifle more circumspect hereafter as to their conduct in public. "Don't that make you tired?" said the actor. "Those women stare at us like they thought we were freaks. It certainly looks very silly." The conversation again turned to the plans of the stock company for the three weeks which remain in the present season. Asked as to what play would be put on next week following "The Butterflies," Mr. Layman said: "We have been discussing that subject with Mr. Hunt all day and nothing definite has been decided yet. We have considered the advisability of revivpieces during the last week, and it may be plan that has been suggested is that we have the two revivals next week and then get 'Quo Vadis' back again for the week to a successful season. There are lots of people in Indianapolis who have not seen the play yet, and if they have a strong enough desire to witness it to justify them in making their wish known to us it is by no means out of the question that such a demand would be heeded. Of course, you understand that 'Quo Vadis' is a very costly production, and that the management here for another week's engagement unless they had reasonable assurance of fair business. I think I can safely say that a definite announcement will be made next

I desire to inform you that Bryce's Old Homestead Bread is the production of fifty-five years' experience in bread making, and is unsurpassed by anything in this country. It costs you the same as ordinary bakers' bread and weighs 24 ounces to the loaf. If you are not using it you will try it.

For Sale at All Groceries.

PETER F. BRYCE, Sole Proprietor.

Messenger's, 201 East Washington St.
